Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

JOHN YERKES says he is neither a candidate for senator nor an applicant for the collectorship of his district.

AMONG the things Gov. Bradley is being urged to put into his call for an extra session of the legislature, which will likely meet early in the new year, are financial legislation to provide for a deficit of \$2,000,000, a board of managers for state prisons, the forming of a branch to assist the court of appeals, changes in the election law, and the reappointment of the state into legislative districts. This last has been long demanded by the republicans, who claim that the state has been germyndered by the democrats. The only hope to redistrict the state is through the aid of the gold democratic senators.

LEADING CONGRESSMEN.

Comment on President Cleveland's Message to the Congress.

WASHINGTON, Dec. 8.—Neither senate or house had a good opportunity of judging of the president's message by the public reading of it. Members and senators were chary in their comments afterwards. A few expressed themselves as follows:

Congressman Grosvenor (rep.), Ohio: The treatment of the Cuban and other foreign matters will not be satisfactory to those who have so earnestly hoped for the early action of our country in the interest of an early cessation of the Cuban question. The discussion of the Cuban question is rather an apology for delay and non-action than the taking of a strong and decisive position. The reference to the tariff is far from satisfactory and that portion of the message which treats of the spoils system would be better understood and fully appreciated if the president had frankly stated that he and his department officers had within the past four years swept out 30,000 faithful and efficient employees of the government for no reason except that they were republicans and filled their places with inexperienced and incompetent applicants, all democrats, many of whom were unfit for the places they got, and all of whom were rewarded for partisanship, either to themselves or their friends, and then that the shield of the civil service law has been used to perpetuate their tenure.

Francis C. Newlands (senator), of Nevada, said that no substantial relief, he thought, could be secured by multiplying promises to pay gold in the shape of bank notes. The only thing to do was to recognize the fact that there was not enough gold to do the world's business and to restore bi-metallicism.

Speaker Reed said: It seems hardly necessary to comment upon the message. It is calm in tone, and on the Cuban question will be much more satisfactory to the community than it would have been a year ago. I wish there had been as frank an acknowledgment of the deficit a year ago as there is now. The idea that the revenue is sufficient, being made so by borrowing, seems to me hardly tenable.

Mr. McMillin (dem.), Tennessee, thinks we can safely urge home rule or local safe government for Cuba. He is willing to go even farther. He does not approve of the president's recommendations for the retirement of greenbacks by an issue of bonds.

Mr. Cannon (rep.), Illinois, said everything demonstrates the absolute necessity of revenue legislation that will bring increased receipts. Upon the Cuban question he thought, from his reading of the message, that congress should await executive action and recommends as to Cuba.

Gen. "Joe" Wheeler (dem.), of Alabama, said he believed a decided friend with regard to Cuba would receive the approval of the civilized world.

Mr. McCreary (dem.), Kentucky, said: I am pleased with the president's reference to the Cuban and Venezuelan questions and the tariff. While I sympathize with the Cuban patriots, and hope some day to see Cuba a free and independent republic. I do not expect the president, so near the close of his term, to recommend any legislation which might seriously interrupt the friendly relations existing between us and Spain, or which might lead to war.

Mr. Taft (rep.), Ohio, said: The president has stated the position of the United States forcibly. He shows that we have responded to all the duties demanded by international law. What he says may be considered as a notice to Spain that the present condition can not continue indefinitely. The president leaves it an open question whether or not he will interfere. It looks as if he intended to turn the Cuban question over to McKinley for settlement.

Mr. Patterson (dem.), Tennessee: The president's treatment of the Cuban question is patriotic and statesmanlike. I believe he has pointed out the way for an honorable settlement of a vexed problem.

Mr. Loud (rep.), California: The position of the president on Cuban affairs should receive the commendation of all Americans.

Mr. Livingston (dem.), Georgia: His position on the Cuban question will not meet with acceptance by the administration people. It is too foreign and not enough American. Mr. Dillard, (rep.) Pa.: The message is fair as to everything but the tariff. The only questions that the public are interested in are Cuba and the tariff. I like best that reference to Cuba where he shows a determination not to permit any other power to interfere in the island's affairs. I don't think congress will join in the president's fear that there may have too much revenue and become extravagant.

Window Glass Workers Secede. PITTSBURGH, Pa., Dec. 8.—Secession has begun within the Window Glass Workers' association. Monday 51 property owning members in Pittsburgh withdrew, and others to the number of about 2,000 are said to have determined to follow the lead. The step was taken, according to A. H. Hammett, one of the founders of the association and ex-treasurer, because, in the opinion of legal advisers, the property owning members are liable at law for the entire indebtedness of the association.

General Pension Appropriation Bill. WASHINGTON, Dec. 8.—The general pension appropriation bill for the year ending June 30, 1898, which was Monday reported to the house from the appropriation committee, carries a total of \$141,203,880. This is \$65,000 less than the appropriation for the current fiscal year and the same amount under the estimates submitted by the commissioner of pensions.

Sheet Steel for Tin Plate. LOREANE, O., Dec. 8.—The Johnson Steel Co. will Tuesday try the first experiment at rolling sheet steel for tin plate.

HOW TO GET UP A "CENTURY" CLUB.

And Secure the Reading of the Greatest of Four Dollar Magazines for One Dollar. Everybody wants to take The Century during the coming year on account of its serials, "Campaigning with Grant," written by Grant's friend and staff officer, Gen. Horace Porter, and the novel of the American revolution, "Hugh Wynne, Free Quaker," in which Washington is one of the characters. The Century costs \$4.00 a year, and many people are clubbing together in groups of four, each one securing the reading of the magazine one week in the month.

If you want The Century in 1897 (and who does not?) a little work among your friends will result in finding three others who want it too. Get one dollar from each of them, and send \$4.00 to The Century Company, Union square, New York, for a year's subscription. Begin with December, and the publishers will send you the November number free, in which these serials begin. There are many dollar magazines, but there is nothing like The Century, and by this arrangement it will cost you no more than a cheap magazine.

You're a Medical Student (to charity patients)—"I think you must have a—some kind of a—advice, but our class has only gone as far as convulsions. I'll come in a week when we get to fevers."

The Crop Outlook in South Dakota for 1897.

It requires but a small amount of rainfall in South Dakota to mature the crop. During 1893 South Dakota had, up to September 30th, three and seven tenths inches more of rain-fall than for any of the previous sixteen years. Since September 30th there has been added at least three or four inches to the excess, making a gain of nearly eight inches more than the average. Early in November there were heavy rains depositing over two inches, and since then there have been heavy snows, and about a foot of snow covered the ground on November 25th. Dakota farmers have abundance of hay and great supplies of oats, barley and corn. Wheat has advanced to about seventy cents a bushel in the local market, and prospects for further advance are good. The ground will come out in the spring better soaked than ever before. The prospect for better prices next year is good. There are thousands of people in the East who could do no better than to go to South Dakota now and buy their seed and feed for next year, and move out in the spring. First-class farming land in South Dakota, and the lines of the Chicago, Milwaukee & St. Paul railway, can now be bought at from \$10 to \$15 an acre. The creamery industry and stock-raising in South Dakota are greatly increased during 1897. For further information address W. E. POWELL, General Immigration Agent, 410 Old Colony Building, Chicago, or H. F. HUNTER, Commercial Agent for South Dakota, 260 Dearborn Street, Chicago, Ill.

HAMBURG—"I hear that Stimpson is dead. He leaves a wife much to be pitied. He supposed so. He always left her as much as he could while he was alive."—Boston Transcript.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven that it is not a local disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional medicine on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case of Catarrh not cured by this medicine. Address F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best.

The setting of a great hope is like the setting of the sun. The brightness of our life is gone, shadows of the evening fall about us, and the world seems but a broader shadow.—Longfellow.

We have received from Warner's Safe Cure Co., of Rochester, N. Y., whose advertisement may be found in another column, their attractive pamphlet for 1897, of which five million copies, it is stated, are being distributed free by mail and through druggists. It contains besides a valuable matter, biographical sketches and portraits of the Presidents of the United States including President-elect McKinley. The perusal of the pamphlet affords abundant proof of the Warner's Safe Cure Co., which has twenty years of success back of it, is as active and enterprising as ever.

Our lives are the open volume the world reads.

When the appetite fails there is no use in trying to tempt the palate with delicate food. No matter how good and well-cooked and "appetizing" the food may be, it cannot give any nourishment unless the stomach is able to digest it. Nature indicates the state of the constitution by the loss of appetite. This is an unfailing indicator. It shows that something is fundamentally wrong with the nutritive functions. The only true natural relief must be as searching and fundamental as the trouble it aims to overcome. It is the thorough searching character of Dr. Pierce's Golden Medical Discovery, which causes the marvelous efficacy in all bilious and digestive difficulties. It creates that healthful vitality of the entire digestive and nutritive organs which produces both the natural desire for food and the organic capacity to assimilate and transform it into nourishing, revivifying blood and healthy tissue. It gives appetite, digestion and sound sleep, and builds up solid muscular strength and vital nerve-energy.

H. H. Thompson, Esq., of P. O. Box 4, Kipton, Ohio, writes: "I had been troubled with extreme vomiting in summer season, always after eating; had to be very careful at times to get anything to stay on my stomach at all. Had been taking other medicines, but without effect. I heard a friend speak of Dr. Pierce's Golden Medical Discovery, and thought I would give it a trial. I used about five bottles of it and think it is the only medicine that did me any good, as I have a splendid appetite now, and am not using any medicine at all and don't think I need any more."

A man who is suffering from the evil effects of constipation doesn't feel like work, and can't even enjoy his leisure hours. Dr. Pierce's Pleasant Pellets are a sure, swift, safe, and permanent cure for constipation. They are tiny, sugar-coated granules. One little "Pellet" is a gentle laxative, and two a mild cathartic. They never gripe. Dishonest druggists try to get you to take a substitute for the sake of the added profit.
